

AI Resume Screening Agent

Project Overview

An AI-powered Resume Screening Agent built with n8n, Groq LLM, Google Sheets, and Gmail API.

Objectives

- Accept Resume PDF and Job Description
- Extract resume text
- Analyze resume with AI
- Score candidate (0-100)
- Recommend Shortlist or Reject
- Save results to Google Sheets
- Send automated email notifications

Workflow

Form Trigger → Extract PDF → AI Agent (Groq) → IF (Score > 80) → Google Sheets → Gmail

Technologies Used

n8n, Groq LLM, Google Sheets API, Gmail API, PDF Extract Node

Conclusion

This workflow automates resume screening, reduces manual HR effort, and speeds up candidate evaluation.
